

TRANSPORTATION SYSTEM PLAN 2035

A Long Range Plan for Maricopa County

We Need Your Input!

The Maricopa County Department of Transportation (MCDOT) is currently updating the Maricopa County Transportation System Plan (TSP). MCDOT plans, designs, constructs and maintains roadways within the County's unincorporated areas.

What is the TSP?

The TSP is a blueprint for long range transportation projects which address the future needs of Maricopa County residents through 2035.

Why does it need to be updated?

MCDOT's current TSP was approved by the County Board of Supervisors in 2007. The TSP 2035 addresses the impact that population and employment growth have on future roadway development to ensure MCDOT plans for projected travel demand.

What is the update process?

- **Seek** public and stakeholder input
- **Conduct** a 5, 10, and 20 year needs analysis
- **Identify** funding (current/future)
- **Recommend** a prioritized projects plan

How can I get involved?

Public and stakeholder input is a vital component of the TSP 2035.

Attend any of our 13 public open houses and let your voice be heard! Open Houses are scheduled throughout the County during February and March (see back for complete list). Open houses will include a brief presentation 45 minutes after the start and interactive comment opportunities.

TSP 2035 Milestone Schedule

PHASE I: Research & Data CollectionJune 2015
Public Input MeetingsFebruary-March 2015
